CYCLONE Extractor Fans

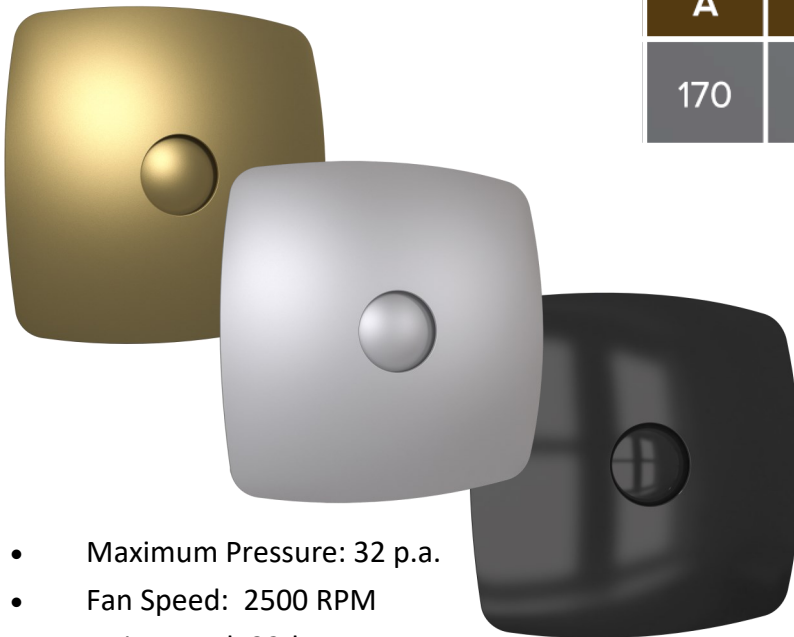

The CESCO CYCLONE range of fans are a sleek decorative fan designed for wall or ceiling applications. These fans are designed with a low profile front on them, with the addition of a tastefully designed front cover with a solid face, giving a more aesthetically pleasing finish. These fans are high quality with extraction rates of up to 28l/s at just 32d/B. The CYCLONE fans are available in a variety of colours meaning there is a perfect solution for all your bathroom ventilation needs.
