Tezla⁺ Smart Downlights

The Tezla⁺ Smart downlights are the ideal solution for your smart home solutions making any of your light fittings smart. With no need for gateways or anything else to complicate things, these fittings are easily connected to the app giving you full access at any time from any where. Available in two cut outs—70mm or 150mm, these are perfect for use at home, in the office or in hotels & lobby's. Once connected to the app, the downlights can be used remotely from your phone, or you can set schedules, colours, timers and so much more. Change colour, dim them, set timers or schedules—its all in your hands!
