Tezla 1W LED Golf Ball Lamps

The Tezla LED Golf Ball range are the perfect solution for festoon lighting or any lighting where a low output is required along with a durable lamp. The lamps are made from a shatter resistant PVC material meaning they won't break if they hit off anything—ideal for festoons which may swing in the wind and hit off trees or walls. The lamps come in a variety of colours in both BC and ES base. They are designed to be IP54 when fitted into a Tezla Festoon.

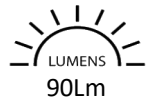

GBLED

1W Lamps

Shatter Resistant PVC lens

Aluminium Base

Efficiency - 90+
Lumen per Watt

Dimensions:

Length: 45mm

Width: 45mm

Height: 70mm

Voltage	Lifetime	Material	Base	Dimmable
220 - 240V - AC	8,000 Hours	Shatter Resistant PVC	Aluminum	NO
