Eldorado IR Patio Heater

The Eldorado IR Patio Heater is the ideal solution for your outdoor heating needs—be it commercial or domestic. Available as standard with a wall bracket, there is also a tripod available separately giving the option of mobility. Fittings are available in options of either 2KW or with a remote so the power can be set at 1KW, 1.5KW or 2KW. Tubes are easily replaced so can be done at home or at work easily.
