

Datasheet

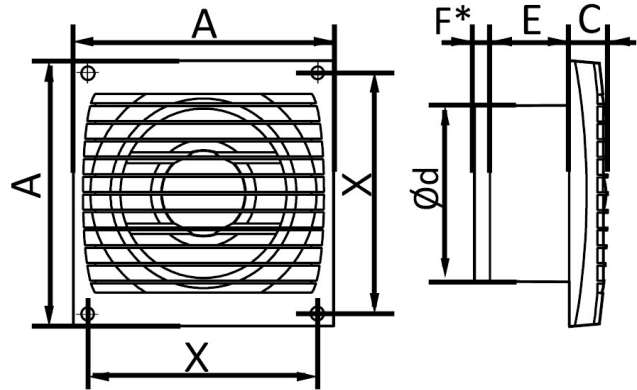

OPT Extractor Fans

The CESCO OPT range are a perfect solution to your ventilation needs. Available in a range of options, these fans come as standard with a rating of IP24. The low profile design allows a neat finish on the wall while the high extraction rate offers an effective solution.

CESCO OPT Extractor Fan Range

- Slim design body—suitable for wall or ceiling mounting
- Open face panel for better performance
- IP24 rated as standard
- Timer can be set to 0 to bypass it
- Turn timer fully anti-clockwise to set to 0
- Turn timer fully clockwise to set to 30 minutes

Item code	A	C	F*	E	X	Ød
OPT100	150	22	5	55	135	100
OPT120	175	23	7	61	160	125

*For fans with back-draught shutter

«TIME» controller

- Maximum Pressure: 28 p.a.
- Fan Speed: 2200RPM
- Noise Level: 35dB
- Max Operating Temp: 40°C
- Max Airflow: 27l/s
- Power Consumption: 14W
- IP Rating: IP24
- Max Duct Length: 10M

Fan should be located outside the splash zone, out of reach of anyone using the bath or shower, a minimum of 1.8M from the floor. These fans are double insulated. All wiring must comply with current regulations. Single Phase 220—240V AC 50Hz
